

Crystal Quick Reference

Goldstone - Blue

Goldstone is a man made crystal. Quartz dust is melted and then copper is added. Blue Goldstone has either cobalt manganese or chromium giving it the deep blue color. It was invented by the Miotti family in Venice in the 17th century.

Blue goldstone is excellent for wish making. Carry a piece of blue goldstone or keep it at your desk to increase job opportunities, career advancements, etc.

It works with the throat chakra and is excellent for actors, performers, musicians, sales people real estate agents, and all those that use their voice as part of their job

This crystal helps to deflect negative energies and is very helpful in healing. It may help easy headaches and migraines, ailments of the eye, and possibly allergies associated with pet dander.

Protects from psychic attacks and is a wonderful crystal for empaths.

Helps with ambition, new beginnings, raising your vibrational level, motivation, balance, and more.

Also a good crystal to aid with learning/education.
