## Nantan Meteorite

Nantan Meteorite

89.9% iron, 6.8% nickel

These are remnants of a meteorite which crashed to Earth in 1516 AD in what is now the Nantan County of Guangxi, China. It came from the asteroid belt between Mars and Jupiter.

This crystal is very high frequency, very powerful. It is a crystal of transformation. It enhances communication with higher beings and other worldly beings.

It is a crystal particularly suited to many Indigo and Star Seed people.

The crystal helps to facilitate healing.

It helps with communication skill on the physical level and higher levels.

It will stimulate and activate psychic abilities.

This crystal is very helpful for activating the light body during transformation.

Stimulates the Bhindu and Nitu chakras (two higher, non-fixed chakras orbiting the body and providing access points to the body of light of an individual).

Works with all 7 major chakras and 21 minor chakras.

Meditating with Nantite can help you remember previous incarnations on this planet and if your spirit did not original on the Earth it can remember those past incarnations as well.

It is a stone of magick, good for channeling, dream work, meditation. It is
