

# Crystal Quick Reference

## Opalite

Opalite

Opalite is a man made crystal. It is a combination of opal dust and quartz dust that is fused together under high heat.

It is a very energetic stone. Aids in meditation. Helps to improve communication on all levels. It is exceptionally good at aiding in communication with spirits and higher beings.

This crystal has the ability to remove energy blockages from all the chakras and energy meridians.

It helps with transitions of all kinds including dealing with death.

Wonderful healing stone. Aids in sexual healing. It helps to stabilize mood swings. It also purifies the blood and kidneys.

In addition to properties listed above, Opalite has all the properties of opal as well as quartz.

Chakras: Throat, third eye, crown
